

Accessories

Auto Darkening Helments

Light weight but durable silver-metallic shell reflects heat from the operator while the auto-darkening 100% UV/IR lens, featuring darkness (DIN), sensitivity and time delay adjustment, provides a clear safe view of the welding operation.

Shield Gas Regulators

These solid brass body inert gas regulators are available from economy single gauge through dual gauge with flow meter and heater models with most standard CGA cylinder valve connects.

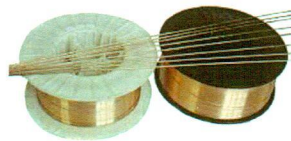

MIG Welding Gloves

These heavy-duty fully lined MIG welding gloves are available with economy nylon through professional Kevlar stitching with extended wrist coverage for higher amp applications.

MIG Welding Wires

These individually packaged spools of mild steel, stainless steel, flux-cored and aluminum alloy wires on 4 or 8 inch spools from .023" - .047" diameter are perfect for most welding applications.

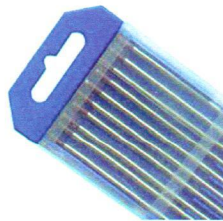

TIG Welding Gloves

These heavy-duty un-lined TIG welding gloves are made of fine, soft, natural goat skin to provide greater sensitivity and feature extended wrist cover cuffs for higher amp applications.

TIG Tungsten Electrodes

These high purity tungsten electrodes assure clean arc and full penetration of mild steel, stainless steel or aluminum alloy welding surfaces when used with corresponding filler rods.

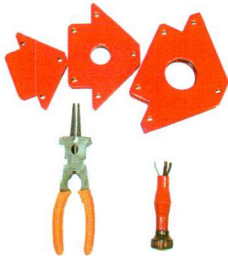

Premium Welding Tools

These tools of the trade for beginners to professionals include welding pliers, nozzle reamers, positioning magnets, work lights, clamps and wire speed & gas flow indicators.

Sprays & Cleaners

Liquid, powder and gel solutions designed to reduce weld spatter, clean wire & tungsten electrodes, remove weld contamination and maintain liquid coolant systems.

Power Cables & Gas Hoses

Complete offering of MIG, TIG & Plasma torch handles, power cable assemblies, gas hoses, air hoses, air line filters, machine plugs, power plugs, earth clamps and welding cables to 600 amps.

Torches & Consumables

Complete offering of MIG, TIG & Plasma torch replacement torch heads, swan-necks, tips, electrodes, tip holders, diffusers, insulators and copper, brass & ceramic gas nozzles
